## JOINING OUR HARVEST TEAM

We welcome you to join our harvest within the beautiful scenery of the South Downs.

This year, we have around 200 acres of vines to harvest in an estimated time of three weeks. As such, it is imperative that our teams are full of dedicated people like you, who can commit to the amount of work we have ahead of us. That means making sure you are aware of our requirements before you apply.

As an agricultural operation, the work will be physically demanding and we will not be able to offer transport around the vineyard. There may also be late finishing times depending on how much fruit we are harvesting in a day. We also work come rain or shine – waterproofs at the ready!

Saying that, harvest is our favourite, most rewarding time of year. We hope you will enjoy it as much as we do.
