Propelled by continued warmth in June, flowering was completed in just a few days. Temperatures remained above average throughout the rest of the summer months, including record-breaking heat during late July.

Aside from the warmth, rainfall was higher than normal during harvest, but disease pressure was low due to effective vineyard management throughout the year. ## ABOUT RATHFINNY

Rathfinny is a family-owned Wine Estate with B Corp status in East Sussex, established in 2010 by Mark and Sarah Driver. Once a working arable farm, the first vines were planted in 2010 and today Rathfinny comprises over 200 acres of predominantly Pinot Noir, Chardonnay and Pinot Meunier.

Rathfinny Wine Estate is located in the South Downs National Park, an area of outstanding natural beauty in Southern England. It occupies the main part of the Cradle Valley, on a south-facing slope close to the iconic Cuckmere Valley, just three miles from the sea and the famous Seven Cliffs, about half a mile south of Alfriston village.

As well as being a stunning site, the Rathfinny vineyard is perfect for growing sparkling wine grapes: The light, thin, clay loam soils over chalk are free draining and very similar to the Champagne region of France. The chalk provides a ready source of water for the vines during the drier summer months. The warm semi-continental climate and long summer days ensure perfect ripening, and the proximity to the sea helps mitigate frost risk, a major problem in cooler climate vineyards in Northern Europe.
